

PERITORUM SHORT COURSES: MEDICAL TRAINING AND ACADEMIC SUPPORT

PERITORUM

1. Academic Writing and Study Skills

Course Content

- What is Academic Writing
- Setting a Title
- Essay Structure
- Case Studies
- Writing in the 3rd Person
- Making your Point
- Assertions
- Arguments
- Knowledge Vs Beliefs
- Avoiding Plagiarism
- Reference Sources
- Referencing
- Harvard Referencing
- British Standard Referencing
- Assignment Proposals
- Common Mistakes in Academic Writing

Who is it for?

Anyone needing to write at a University Level

Duration

1 Day

Total Cost

£100

2. ALS (Pre-Hospital/ Ambulance) Refresher

Course Content

- Current ALS Protocol for the Pre-Hospital/ JRCALC environment

Who is it for?

Paramedics and similar Acute Unit (Registered) Personnel

Duration

1 Day

Total Cost

£100

3. Ambulance Emergency Preparedness

Course Content

- Major Incident Definition
- First Crews on Scene
- Reconnaissance
- METHANE Report

- CSCATTT Process
- Command Role
- Staff Briefing
- Sieve Triage
- Sort Triage
- Children
- Incident Zones
- Officer Roles
- Communication
- Terrorism and Extreme Threat Awareness
- Taking Cover
- EH20 Escape Hoods
- Electronic Personal Dosimeter
- Radiation Doses
- Nerve Agent Antidote Kits
- Chemical Suicide
- Flooding and Water Rescue.

Who is it for?

All Ambulance Personnel and Associated Professional

Duration

3 hours

Total Cost

£30

4. Anatomy and Physiology – major body systems for Carers

Course Content

- Introduction to the Human Body
- Respiratory System
- Oxygen and Nebulisation
- Cardiovascular System
- Nervous System
- Skeletal System
- Nutrition.

Who is it for?

Developing ECAs or other Care Assistants

Duration

2 and ½ days

Total Cost

£250

5. Assisting the clinical practitioner

Course Content

- Assisting with Stepwise Airway Management
- Cannulation
- Fluids and Infusions
- Drug Administration

Who is it for?

Developing Emergency Care Assistants

Duration

1 Day

Total Cost

£100

6. Back Care Leads Course

Course Content

- Legislation
- Anatomy of the Spine
- Golden Rules of Lifting
- Dynamic Risk Assessment
- Mechanics of Lifting
- Kinetics of Lifting
- Patient Handling Equipment
- Safer Manual Handling
- Techniques that are no longer and why.

Who is it for?

All levels of Healthcare Professionals

Duration

2 Days or 12 hours.

Total Cost

£200

7. Cleaning, Decontamination and Waste Management in Health and Social Care

Course Content

- Care Quality Commission
- Compliance and Regulatory Frameworks
- Role of Clinicians
- IP&C
- Management Responsibilities
- Staff Responsibilities
- Infection Transmission and Your Protection
- Protecting Patients and Yourself

- Hand Hygiene
- Decontamination of Medical Equipment and Vehicles
- National Colour Coding System
- Segregation of Cleaning Materials and Mops
- Cleaning and Decontamination
- Sharps Disposal
- IPC Auditing
- COSHH
- RIDDOR
- Chemex Cleaning Agents
- Personal Protective Equipment
- Manual Handling
- Golden Rules
- Dynamic Risk Assessment
- Kinetics of Lifting

Who is it for?

All HCPs and Domestic Staff

Duration

3 hours and 30 minutes

Total Cost

£30

8. Clinical Safety Netting

Course Content

- Case Studies and Discussion Scenarios
- Duty of Care
- Proving Negligence
- Safety Netting
- Patients' requirements
- Full History
- Base Line Observations
- Additional Observations
- Patient Advice
- Documentation
- SBAR Communication Tool.

Who is it for?

All HCPs

Duration

1 hour

Total Cost

£20

9. Clinical Supervision (Ambulance Model)

Course Content

- Need for Clinical Supervision
- Requirements of Clinical Supervisors
- Types of Supervision
- The Ambulance Model of Clinical Supervision
- Human Elements
- Knowledge Vs Beliefs
- Behaviours
- Big 5 Trait Theory
- Bataris Box
- Decision Making
- Minor, Serious and Critical Errors
- Giving Feedback
- Reflective Practice
- Setting Scenarios
- Writing Developmental Action Plans
- SMART Plans
- Setting Objectives
- Instructional Vocabulary
- SWOT Analysis
- Zones of Proximal Development
- Red Flagging and practical scenarios

Who is it for?

Ambulance Providers and other non-static healthcare providers seeking to establish a robust process of clinical supervision

Duration

1 and ½ day.

Total Cost

£150

10. Community Paramedic

Course Content

- Ethics & Law
- Evidence Base Practice
- Professional Role of the Community Paramedic
- Medical Model of Enquiry
- Respiratory Assessment
- Cardiovascular Assessment
- Central Nervous System Assessment
- Clinical Safety Netting
- Abdominal Assessment
- Pharmacology
- Pain Management

- Wounds and Skin Tears
- Musculoskeletal Assessment
- Wounds Paper & OSCEs.

Who is it for?

Paramedics but is of interest to Paramedic Students & Technicians.

Duration

6 Days

Total Cost

£800

11. Conflict Resolution (NHS)

Course Content

- Causes of conflict
- Reasons for Conflict
- Communication
- Verbal, Non-Verbal and Non-Vocal Communication
- Communication Models
- Patterns of Behaviour
- Warning Signs
- Danger Signs
- Psychological affects
- Impact Factors
- Proxemics
- Common Law
- Reasonable Force
- Break techniques (Discussion)
- Dealing with conflict situation
- Common influences leading to Compromised Safety
- Your safety away from work.

Who is it for?

All NHS Personnel

Duration

1 day initial course

3 hours and 30 minutes refresher

Total Cost

£100

12. Dementia Awareness

Course Content

- Definition of Dementia
- Anatomy of the Alzheimer's Brain
- Types of Dementia
- Practical Exercises in helping Dementia Patients

- Mental Capacity
- Support Pathways.

Who is it for?

All Healthcare Professionals and Retail and Private Sector

Duration

2 hours

Total Cost

£30

13. Domestic Violence Awareness

Course Content

- Domestic Abuse
- Responsibilities
- Key National Facts
- Recognising Domestic Abuse
- How To Respond
- Best Practice
- MARACs
- Care of Colleagues
- Domestic Homicide Reviews
- Signposting to Further Support

Who is it for?

All Healthcare Professionals

Child Minders

Duration

2 hours

Total Cost

£30

14. Emergency Care Assistant

Course Content

- Professionalism and the role of the Emergency Care Assistant
- Infection Prevention & Control in the Pre-Hospital Care
- Principles of Safeguarding Children and Adults
- Moving & Lifting Patients
- Anatomy, Physiology & Pathophysiology of the Key Body Systems in Emergency Care
- Observing and Monitoring Patients in Emergency Care
- Basic Life Support and Automated External Defibrillation
- Supporting the Care of the Pregnant Patient, Babies, Children and their Families
- Supporting the Care of the Elderly
- Supporting the Care of Patients with Mental Health Problems and Learning Disabilities
- Supporting the Care of the Trauma Patient, Extrication and Light Rescue

- Assisting the Paramedic
- Major Incidents and on Hazardous Environments.

Who is it for?

ACA up Skill and Direct Entrants to A&E Ambulance work

Duration

10 weeks Virtual Learning Environment (VLE) + 750 hours placement

Practical lessons on Week 5 (Serious Illnesses) and Week 10 (Serious Injuries)

Total Cost

£2400

15. Emergency Trauma Life Support Refresher

Course Content

- The Golden Hour and the Platinum 10 Minutes
- Patient Assessment
- Scene Size Up
- Mechanism of Injury
- 3 Collisions
- Clues to Injury
- Falls
- Penetrating Injuries
- Blast Injuries
- Rapid Trauma Survey
- Secondary Survey
- Major Trauma Centre Divert.

Who is it for?

All HCPs involved with Pre-Hospital Care

Duration

1 Day

Total Cost

£100

16. End of Life Care Awareness (Pre-Hospital/ Hospice)

Course Content

- Complexity of the issue
- DNACPR
- Duties of Staff
- Reporting Mechanisms
- Caring for the Patient and Family
- Discussion Scenarios
- Where to get more help.

Who is it for?

All Healthcare Professionals (Can be tailored to client)

Duration

2 hours

Total Cost

£30

17. Elderly Patient Awareness

Course Content

- Definition of Getting Old
- Statistics
- Discussion Scenarios
- Geriatric Anatomy & Physiology
- Common Age Related Diseases
- Scene Assessment
- Mental Capacity & Consent
- Environment and Social Needs
- Patient Assessment
- Medication and Poly Pharmacy
- Trauma Assessment
- Mini Mental Test
- Vulnerable Adult Assessment
- Pressure Sores Classification

Who is it for?

All HCPs

Duration

3 hours

Total Cost

£50

18. Equality & Diversity Awareness

Course Content

- Definitions of equality and diversity
- Attitudes and behaviours
- Legislation
- Case studies.

Who is it for?

Everyone

Duration

1 hour

Total Cost
£20

19. Equality & Inclusion in Health in Social Care

Course Content

- What is Equality and Diversity?
- Attitudes & Behaviours
- Legislation
- Legislation Case Studies
- NHS Strategies
- Public Sector Equality Duty & Expectations
- Ethics – Professional Accountability
- Moral Theories
- Values, Moral and Non-moral Theories
- Key Principles of Medical Ethics
- Consequentialism
- Deontology
- Bioethics
- Confidentiality
- Law – Legal Rules
- Functions of Law
- Where our Law comes from
- Criminal Law
- Civil Law
- Tort
- Relationship Between Law and Ethics
- Consent – What is Consent
- Refusal of Consent
- Informed Consent
- Functions of the Law of Consent
- What is an Autonomous Person
- Mental Capacity Act
- Children and Consent
- Gillick Competency
- Basic Sociology
- Behaviours
- Social Policy Discussion
- Expectations of Society
- Socialisation
- Culture
- Social Norms
- Diversity
- Prejudice
- Stereotyping
- Discrimination
- Equality
- Emotional Intelligence
- Health & Wellbeing
- Human Needs

- Factors Contributing to Health and Well Being
- Health Inequalities
- Sensitive Patient Care

Who is it for?

Developing Health Care Professionals or Healthcare Professionals CPD

Duration

1 Day

Total Cost

£100

20. Falls Assessment

Course Content

- Definition of a fall
- Statistics
- Physiological Changes of Aging
- Common Pathologies Associated with falls
- Multifactorial process
- Fall Predictors
- Nation Service Framework
- Changes in Gait
- Abnormal Gait
- Medications Associated with Increased Risk of Falling
- Complications of Falling
- Assessment of Patients and Management.

Who is it for?

All Healthcare Professionals

Duration

2 hours

Total Cost

£30

21. First Person on Scene – Basic

Course Content

- The Pre-Hospital Environment
 - The role of FPOS
 - Scene Safety
 - Minimising risk of Infection
 - Post Incident Procedures
- Patient Assessment
 - Communicating with Patients
 - Examination and Assessment

- Respiration & Airway Management
 - Recognition of Respiratory Problems
 - Common Breathing Difficulties
 - Basic Airway Management
- Basic Life Support
 - Perform basic life support
 - Recovery position
- AED (Automated external defibrillation)
- Circulation & Shock
 - Recognition and initial care of haemorrhage
- Medical Related Emergencies
 - Recognition and initial care of heart attack, diabetes, stroke etc.
- Trauma Related Emergencies
 - Recognition and initial care of injuries to bones, joints, tendons etc.
 - Recognition & initial care of burns and scalds
 - Recognition & initial care of other trauma related injuries
 - Skeletal stabilisation

Who is it for?

Everyone

Duration

2 days

Total Cost

£250

22. First Person on Scene – Intermediate

Course Content

- The Pre Hospital Environment
 - The role of FPOS
 - Scene Safety
 - Minimising risk of Infection
 - Post Incident Procedures
 - Scene Management – Safety, Triage
- Patient Assessment
 - Communicating with Patients
 - Examination and Assessment
 - Primary Survey and Assessment
 - Safe Moving and Handling
- Respiration & Airway Management
 - Recognition of Respiratory Problems
 - Common Breathing Difficulties
 - Basic Airway Management
 - Use of Suction
 - Removal of Crash Helmets
 - Use of Oro-Pharyngeal Airways
 - Oxygen Supplementation
 - Ventilation Support
 - Bag/Valve/Mask

- Basic Life Support
 - Perform basic life support
 - Recovery position
 - Perform child & infant basic life support
- AED (Automated external defibrillation) & Normal/abnormal heart rhythms
- Circulation & Shock
 - Recognition and initial care of haemorrhage
- Medical Related Emergencies
 - Recognition and initial care of heart attack, diabetes, stroke etc.
 - Assisting the Paramedic
- Trauma Related Emergencies
 - Recognition and initial care of injuries to bones, joints, tendons etc.
 - Recognition & initial care of burns and scalds
 - Recognition & initial care of other trauma related injuries
 - Skeletal stabilisation

Who is it for?

Everyone

Duration

4 days

Total Cost

£400

23. Hazardous Substances Awareness

Course Content

- Chemicals
- UKHIS and HAZCHEM
- CIMAH Regs. 1984
- Decontamination
- Radioactive Substances
- Biological Substances
- Poisoning
- Entry to the Body
- Types of Poison
- Management of Poisoning

Who is it for?

All Healthcare Professionals

Duration

3 hours and 30 minutes

Total Cost

£50

24. How to build a CPD portfolio

Course Content

- Completion of a CPD Portfolio to HCPC Standards
- Reflective Cycles
- Activity Reviews
- Academic Writing.

Who is it for?

All Health & Care Professions Council Registrants and any other interested parties

Duration

2 hours

Total Cost

£50

25. IHCD Paramedic Refresher – Return to Practice Course and Developmental

Action Plans

Course Content

- Tailored to need

Who is it for?

Paramedics on corrective action plans including HCPC action plans, returning to practice or simply in need of a refresher.

Duration

1 week for A&P and Pharmacology

Possible 1 week for Trauma, Paediatrics and Obs/Gynae – Tailored to need

Total Cost

£500 per week

26. Infection Prevention and Control

Course Content

- Infection Transmission and your Protection
- How to Protect your Patients
- Blood Borne Viruses
- MRSA
- Clostridium Difficile
- Your Responsibilities
- Legislation
- Policies and Procedures
- Six Golden Rules
- Hand Hygiene
- Personal Protective Equipment
- Accidental Exposure to Blood or Body Fluids
- Discussion Scenarios

- Correctly Setting Up a Sharps Container
- First Aid.

Who is it for?

All HCPs and Domestic Staff

Duration

3 hours and 30 minutes

Total Cost

£30

27. Introduction to Law and Ethics for Paramedics

Course Content

- Ethical Theories
- Moral Frameworks
- Moral & Non Moral Values
- Consequentialism
- Deontology
- Bioethics
- Basis of Law
- Difference between Law and Ethics

Who is it for?

Paramedics

Duration

4 hours

Total Cost

£50

28. IV Cannulation & Fluid Therapy

Course Content

- IV Equipment
- Hazards
- Anatomy of the Hand and Arms
- Cannula Sizes
- Fluids
- Osmolarity
- Indications for Use
- Circulatory Overload
- Cannulation Technique
- IP&C
- Hazards of Cannulation
- Tips and Tricks
- Safety and Safe Disposal of Sharps

Who is it for?

Paramedics & Nurses

Duration

1 Day

Total Cost

£100

29. IGel & Stepwise Airway Management

Course Content

- Insertion of a Supraglottic Airway as part of a stepwise airway management process (JRCALC)

Who is it for?

Technicians, Paramedics and other Registered HCPs

Duration

3 hours and 30 minutes

Total Cost

£50

30. Information Governance (NHS)

Course Content

- Legislation
- Data Protection Act
- Freedom of Information Act
- NHS Constitution
- Good Record Keeping
- Your Responsibilities.

Who is it for?

All Health Service Staff

Duration

30min

Total Cost

£10

31. Intermediate ECG (Paramedic Level) Refresher

Course Content

- Basic Concepts of the ECG
- Lead Placement
- Technician Need to Know Rhythms
- 41 Paramedic Dysrhythmias
- 12 Lead ECG interpretation

Who is it for?

All Healthcare Professionals

Duration

1 Day

Total Cost

£100

32. Introduction to Pharmacology

Course Content

- Homeostasis
- What are Drugs?
- Drug Sources
- Liquid Drug Forms
- Solid Drug Forms
- Osmolality
- Action of Drugs
- Pharmacokinetics
- Absorption
- Distribution
- Metabolism
- Elimination
- Pharmacodynamics
- Receptors
- Beta Blockers
- Beta Blocker Overdose
- Agonists
- Antagonists
- Ion Channels
- Enzymes
- Blood Clotting
- NSAIDS
- Carriers
- Fluid Therapy
- Crystalloids Vs Colloids
- Circulatory Overload
- Hypertension
- Water Toxicity & Hyponatremia.

Who is it for?

All Healthcare Professionals

Duration

1 Day (Theory only)

3 hours and 30 minutes (Practical can be added as an extra)

Total Cost

£100 (Theory only)

£150 (Theory & Practical)

33. Introduction to Evidence based Practice, Research and Values based Practice for Paramedics

Course Content

- Evidence based practice in Healthcare
- Positivist & Interpretivist Research
- Meta-analysis
- Value based Practice

Who is it for?

Paramedics

Duration

4 hours

Total Cost

£100

34. Introduction to Law, Ethics, and Evidence based Practice, Research and Values based Practice for Paramedics

Course Content

- Ethical Theories
- Moral Frameworks
- Moral and Non Moral Values
- Consequentialism
- Deontology
- Bioethics
- Basis of Law
- Difference between Law and Ethics
- Evidence based Practice in Healthcare
- Positivist & Interpretivist Research
- Meta-analysis
- Value based Practice

Who is it for?

Paramedics

Duration

1 Day

Total Cost

£50

35. JRCALC Primary Survey

Course Content

- Primary Survey to the standards described in JRCALC 2013

Who is it for?

All Ambulance Personnel

Duration

3 hours

Total Cost

£30

36. LP 15 incl. Capnography

Course Content

- Complete instruction on how to use a LP15

Who is it for?

Emergency Care Assistant, Technician, Paramedic & Nurse

Duration

3 hours and 30 minutes

Total Cost

£50

37. Law & Ethics Awareness.

Course Content

- Ethics – Professional Accountability
- Moral Theories
- Values, Moral and Non-moral Theories
- Key Principles of Medical Ethics
- Consequentialism
- Deontology
- Bioethics
- Confidentiality
- Law – Legal Rules
- Functions of Law
- Where our Law comes from
- Criminal Law

- Civil Law
- Tort
- Relationship Between Law and Ethics
- Consent – What is Consent
- Refusal of Consent
- Informed Consent
- Functions of the Law of Consent
- What is an Autonomous Person?
- Mental Capacity Act
- Children and Consent
- Gillick Competency.

Who is it for?

All Healthcare Professionals

Duration

3 hours and 30 minutes

Total Cost

£50

38. Mental Capacity Awareness and Assessment

Course Content

- Right to Refuse Treatment
- Capacity
- What is Lack of Capacity?
- Assessing Capacity
- Best Interests
- Emergency Situations
- Discussion Scenarios
- Types of Restraint

Who is it for?

All Healthcare Professionals

Duration

1 hour

Total Cost

£30

39. Moving and Handling of Patients

Course Content

- Legislation
- Anatomy of the Spine
- Golden Rules of Lifting
- Dynamic Risk Assessment
- Mechanics of Lifting

- Kinetics of Lifting
- Patient Handling Equipment
- Safer Manual Handling
- Techniques that are no longer permitted and why.

Who is it for?

All levels of Healthcare Professionals

Duration

1 Day

Total Cost

£100

40. Manual Handling of Inanimate Objects

Course Content

- Legislation
- Anatomy of the Spine
- Golden Rules of Lifting
- Dynamic Risk Assessment
- Mechanics of Lifting
- Kinetics of Lifting

Who is it for?

Any person who lifts inanimate objects e.g. Office, Warehouse etc.

Duration

3 hours 30 minutes

Total Cost

£50

41. Medical Model of Enquiry History Taking, Respiratory & Cardiovascular Assessment

Course Content

- Context of the Medical Model of Enquiry to Paramedic Practice
- History Taking
- Focused Respiratory
- Cardiovascular Examination

Who is it for?

All Healthcare Professionals

Duration

1 Day

Total Cost

£100

42. Pain Management

Course Content

- Factors Effecting Pain
- Pharmaceutical Management of Pain
- Entonox
- Morphine
- Opiates and Opioids
- Special Patient Groups
- Measuring Pain
- Abbey Pain Scoring
- Discussion Exercises
- Non-pharmacological pain relief
- Gate control theory
- Psychological mediators of pain.

Who is it for?

All Healthcare Professionals

Duration

2 hours

Total Cost

£30

43. Paramedic Level Anatomy and Physiology of the Nervous System Course

Course Content

- Anatomy of the Nervous System
- Subdivisions of the Nervous System
- Common Neurological Diseases
- Synapses and Neurotransmitters

Who is it for?

Everyone – Paramedics/Student Paramedics/Technicians/First Aiders etc.

Duration

1 Day

Total Cost

£100

44. Paramedic Level Anatomy and Physiology of the Cardiovascular System

Course Content

- Anatomy of the Cardiovascular System
- Circulatory Systems
- Cardiac Cycle
- Coronary Circulation

- Sodium Potassium Pump
- Shock and Common Cardiovascular Diseases

Who is it for?

Everyone – Paramedics/Student Paramedics/Technicians/First Aiders etc.

Duration

1 Day

Total Cost

£100

45. Paramedic Level Anatomy and Physiology of the Respiratory System

Course Content

- Anatomy of the Respiratory Tract
- Chemical Control of Respiration
- Neurological Control of Respiration
- Respiratory Capacities and their relevance to care
- Bicarbonate Buffering System
- Capnography

Who is it for?

Everyone – Paramedics/Student Paramedics/Technicians/First Aiders etc.

Duration

1 Day

Total Cost

£100

46. Paramedic Level Neurological Assessment

Course Content

- Context of the Focused Neurological Examination

Who is it for?

Everyone – Paramedics/Student Paramedics/Technicians/First Aiders etc.

Duration

1 Day

Total Cost

£100

47. Paramedic Level Paediatric Assessment (Medical & Trauma)

Course Content

- Anatomy and Physiological Variances and Values for Paediatric
- Medical Presentations
- Mechanisms of Injury

Who is it for?

Everyone – Paramedics/Student Paramedics/Technicians/First Aiders etc.

Duration

1 Day

Total Cost

£100

48. Paramedic Level Pharmacology

Course Content

- Introduction to the Origins of Drugs
- Pharmacokinetics
- Pharmacodynamics
- Drug Dosage calculations
- Practical Element on drawing up Drugs Safely and Correctly

Who is it for?

Everyone – Paramedics/Student Paramedics/Technicians/First Aiders etc.

Duration

1 Day

Total Cost

£100

49. Patient Experience

Course Content

- Definition of the Patient Experience
- NHS Being Open Policy

Who is it for?

All Healthcare Professionals

Duration

30min

Total Cost

£10

50. Personal Development in Health and Social Care

Course Content

- What is competence
- Reflective Practice
- Models of Reflection
- Case Studies
- SWOT Analysis
- Zone of Proximal Development
- Reflective Diaries
- Knowledge Skills Framework
- Personal Development Reviews

Who is it for?

All Healthcare Professionals

Duration

1 Day

Total Cost

£100

51. Patient Monitoring and Observation

Course Content

- What Will I Observe?
- What Will I Measure?
- Why do we Measure these Things?
- What is Homeostasis?
- Patient Report Forms
- Primary & Secondary Survey
- History Taking
- Vital Signs
- Glasgow Coma Scale
- Assessment of the Skin
- Pre-Alerting Hospital
- Taking Observations – Blood Pressure
- Pulse oximetry
- Blood Glucose
- Pulse
- Respirations
- 3 & 12 Lead ECG
- Life Pak 15.

Who is it for?

Developing ECAs or other Care Assistants

Duration

2 Days

Total Cost

£200

52. Role of the Health and Social Care Worker

Course Content

- What is expected of HCPs?
- Code of Conduct
- Duty of Care
- Integrity & Reliability
- Personal Standards
- Conduct Towards Patients
- Conduct Towards Others
- Sense of Responsibility
- Honesty
- Role of the ECA
- ECA working in Conjunction with Paramedics and Technicians
- Clinical Hierarchy
- Common Standards of a HCP Code of Conduct
- Fitness to Practice
- Professional Misconduct
- Interprofessional Working
- Overcoming Barriers to Interprofessional Working
- Introduction to Ethics
- Basic Conflict Resolution.

Who is it for?

Developing HCPs

Duration

1 Day

Total Cost

£100

53. Safeguarding Adults and Paediatrics

Course Content

- Why do we need to Safeguard Children?
- Types of Abuse and their Signs and Symptoms
- Fabricated Illness
- Indicators of a Non Accidental Injury
- Who is a Vulnerable Adult?
- Types of Abuse and their Signs and Symptoms
- Domestic Abuse
- Responsibilities
- Key National Facts
- Recognising Domestic Abuse
- How to Respond
- Best Practice
- MARACs
- Care of Colleagues
- Domestic Homicide Reviews

- Signposting to Further Support
- How to General Scenarios of Abuse
- National and Local Policies on Abuse
- Whistleblowing and Reducing Unsafe Practice.

Who is it for?

All Healthcare Professionals, Child Minders

Duration

1 Day

Total Cost

£100

54. Support the emergency care of Children

Course Content

- Anatomy and Physiology of the Paediatric Airway
- Recognition of the Sick Child
- Recognition of the Seriously Ill Child

Who is it for?

Developing ECAs or other Care Assistants

Duration

3 and ½ hour

Total Cost

£50

55. Support the emergency care of Pregnant Patients

Course Content

- Gestation
- Imminent Delivery Indicators
- Stages of Labour
- Management of the Second Stage of Labour
- Complications of Labour
- Ectopic Pregnancy
- Eclampsia and Pre-Eclampsia
- Prolapsed Cord
- Transportation Positions
- Cervical Shock
- Placenta Praevia
- Placenta Abruption
- Shoulder Dystocia
- Breech Birth
- Post-Partum Haemorrhage
- Uterine Inversion
- Pre-Term Babies
- Incubators

Who is it for?

Developing ECAs or other Care Assistants

Duration

3 hours and 30 minutes

Total Cost

£50

56. Support the emergency care of people with Learning Disabilities

Course Content

- What is a Learning Disability?
- Historical Terminology
- Health Issues
- Diagnostic Overshadowing
- Communication
- Valuing People

Who is it for?

All HCPs and the Private Sector e.g. retail

Duration

3 hours and 30 minutes

Total Cost

£50

57. Transcutaneous Pacing

Course Content

Using Transcutaneous Pacing to manage bradycardic patients with the Lifepak 15.

Who is it for?

Paramedics and similar Acute Unit (Registered) Personnel

Duration

3 hours and 30 minutes

Total Cost

£75
